Dear Sir/Madam,

PROPOSED WORKS TO BASE STATION AT CTIL_137417_25, EASTCOTE ROAD, EASTCOTE VILLAGE, HILLINGDON, HA5 2ET (NGR: 510579, 188617)

This letter is to let you know that Cornerstone and Vodafone and VMO2 (trading as O2) are undertaking works to the existing radio base station at Eastcote Road.

The proposal, which we feel is the best solution to serve our customers in the local community, will include: The replacement of the existing 17.5m monopole supporting 6no. antennas with a 20m monopole supporting 12no. antennas, the replacement of 5no. existing cabinets with 6no. cabinets and 1no. meter cabinet, and ancillary works thereto.

It is noted that the site location has been slightly amended for this upgrade. The location of the replacement monopole is proposed to be moved approximately 23m south west of the existing monopole. The replacement monopole cannot be built on the current root, and as such a section of highway/pavement which is clear of any underground utilities/services has been identified. The replacement cabinets will be sited alongside the new monopole location, in a neat linear fashion.

Several locations in closer proximity to the existing site location were investigated, however, owing to the presence of underground utilities/services along this stretch of highway/pavement, it has not been possible to site the replacement monopole any closer than the chosen location. Mobile network operators are unable to deploy telecommunications equipment on existing services. Due to safety implications for gas, water and electrical services, there are great limitations upon feasible siting location options in the area surrounding the current site location. The chosen siting option avoids any restrictive underground utilities/services and is located as close as feasibly possible to the existing site location.

It is intended that the works will take place shortly and we will endeavor to keep any disruption to a minimum

Should you have any queries regarding this matter, please do not hesitate to contact me (quoting cell number CTIL_137417 25).

In the first instance, all correspondence should be directed to the agent.
